

SAP S/4HANA Business Suite

The Next-generation Business Suite

WHAT IS SAP BUSINESS SUITE 4 SAP HANA (SAP S/4HANA)?

SAP S/4HANA is an in-memory Enterprise Resource Planning (ERP) suite available in the cloud or on-premise. It is the digital core that enables your business to take complete advantage of the Internet of Things (IoT), Big Data, real-time analytics, mobile, business networks, third-party systems, and more. Driving instant value across all lines of business – no matter your industry or business size. It is built on our advanced in-memory platform, SAP HANA.

OBJECTIVES

- Drive business at the speed of the market and boost responsiveness
- Streamline business operations
- Gain better insight into business operations

THE SOLUTION

- Powerful ERP software to manage finance, sales and service, procurement and logistics execution, product development, manufacturing, and more
- Proven technology for scalability and growth using the SAP NetWeaver technology platform and the SAP HANA database
- SAP S/4 HANA runs on SAP HANA for massive

simplifications and innovations

- SAP S/4 HANA is natively designed with SAP Fiori UX, offering an integrated user experience with modern usability and insight on any device
- Functionality designed to solve industry specific business challenges

BUSINESS BENEFITS

- Enhanced business agility
- Greater efficiency and effectiveness
- Increased visibility into operations
- Instant, real-time insight for better decisions
- Reinvented processes for higher performance
- FIORI user experience for higher productivity
